AGUINALDO AN HONEST MAN,

America's Duty in the Philippine Islands.

THE GUNS' WORK ABOUT DONE.

We Should Now Send Missionaries. Why the Filipinos Distrust the Americans.

New York, Dec. 27—The Independent for the current week, will contain an article by Jacob G. Schurman, president of Cornell University, chairman of the United States Commission to the Philippines, entitled "Our Duty to the Philippines."

Following is an abstract:

"We have forty to fifty tribes to civilize and seven or eight of these tribes have some 300,000 members each. On the island of Luzon there is one tribe of a million and a half people who speak one language as totally distinct from the other languages as Spanish is from English. Another tribe on the same island numbering about 600,000, is as distinct from the others in language and characteristics as they are from the Spaniards themselves. Then on the great island of Mindanoa there are many tribes that are entirely different from each other. In the Sulu archipelago we come to another class of natives, about whose custom of slavery so much has been said recently. These are all Mohammedans, while in Luzon the natives are all Catholic christians.

"The priests have ruled in Luzon so long that their influence is widespread and the natives know of no other forms of christianity. The Roman Catholic church has been established there for three hundred years, and the archipelago was really governed by the priests, and not by the Spanish civil or military commanders. Of the $13,500,000 raised on the island annually about $1,500,000 was used for the churches' support. Each small church would receive about $500 for its support and the priest an allowance of $300. We must credit the church with having done a great deal of good work among the natives. We must reckon with those facts when we send missionaries to the Philippines.

MISSIONARIES NOW NEEDED.

"Missionaries are needed in the islands, and I hope they will be sent there in large numbers. There is plenty of work for them to do, and I hope they will go, with a complete understanding of the situation, to accomplish good. They must realize that they are contending with a Catholic educated population that knows nothing about the fine differences between Protestant sects and denominations. Therefore, it would be highly impolite to send missionaries of different beliefs to confuse the minds of the people. I do hope that when we send missionaries we will decide before hand on one form of Protestant christianity. Send only one type of missionary. The Filipinos will then have Catholic Christianity and Protestant christianity presented to them so they can make their choice. We have no adequate idea how confusing to the simple minds of an uncivilized people the different forms of our Protestant faith appear. The Chinese who are perhaps more intelligent than the Filipinos regard our different denominations as so many different religions.

"I think the island of Mindanoa is a more promising field for missionaries to begin their work in than Luzon. The influence of the Catholic church has not been extended to Mindanoa, and the simple natives would more readily accept the type of faith which the Americans would teach them. It is possible that it would be dangerous to send missionaries to the interior of this island at present, but as conditions become more settled and the Americans are looked upon with a more friendly feeling, this place will be a rich field for the American missionary. We owe it to the Filipinos to give them the best in our religion as well as in our education.

WHY THEY DISTRUST US.

"I believe the fighting in the Philippines is nearly over and our armies now fighting in northern Luzon will soon be required only to keep down the bandits. The organized army has disappeared and with it we might say the whole insurrection. Most of the leaders of the insurrection have been won over to our side.

"I do not say that all of the insurgent leaders were dishonest. I believe that many of those who fought against the Americans were animated by the highest idea of loyalty to independence. I think probably Aguinal, do is one of this class and that he is an honest man.

"One reason for the stubborn opposition to our occupation of the islands was a legacy of suspicion and hatred for the white man which Spain bequeathed to us. The Philipinos know the white race only by one specimen. Spain to them represents the whole world of Europeans—the whole white race—and her authorities made promises repeatedly to them and broke them. They will not today trust Americans or Spaniards or any other Europeans. Nor is it strange that they distrust the promises of the Americans. This distrust of the white race is one of the problems that will require years of labor to overcome. You cannot overcome it with words. It must be dissipated by actual works; they must have ocular demonstration that the word of the Americans can be relied upon. Not until then will they begin to believe us. Consequently I

TWO ITEMS

Showing a Barroom Town Against a Dispensary Town.

"It is the universal comment that there was never witnessed in Charlotte such debauchery as characterized Christmas day and it was a special grief to observe that this extended so far into the ranks of the young boys of the community. Numbers of them, not more than half way through their teens, exhited themselves openly in various stages of intoxication, and for this cause, if no other, Christmas day, 1899, will long remain a painful a memory."—Charlotte Observer.

The Telegram has already copied the above editorial, but the Monroe Journal prints it and adds the following in brackets. It fits so well that we reproduce it:

[We do not print this item from any desire to further the news of the bad conduct of Charlotte, but rather to call attention to the excellent behavior that existed in Monroe at the same time. There was absolutely no rowdyism, hardly any intoxication and no debauchery here. Monroe has a dispensary, Charlotte has a large number of srloons Our dispensary was closed Christmas day. Draw your own conclusion.—Journal.]

That Railroad Shed.

The people of Greensboro are kicking hard against the Southern on account of the want of a gutter on the new railroad shed, and in fact for want of a shed big enough to cover the railroad yards of the town. There was a time when Greensboro would have been glad to have gotten any old shed, but the Southern Railway has given her a magnificent passenger depot, the best in the south, and now she wants the earth. But we suppose ingratitude is the same at Greensboro that it is elsewhere.—Winston Journal.

No, no, friend Journal, not quite so greedy. There may be those here who would like to have the earth, but as Greensboro is the center of the ball, the most of us are satisfied with whatever comes along in the way of respectable improvements.

KRUGER'S PRICE FOR PEACE.

Shelling at Ladysmith Has Greatly Increased—Silenced Twelve-Pounder Active Again.

By Cable to THE TELEGRAM.

Ladysmith, Dec. 23—Boer shelling has greatly increased during the last few days. Their twelve pounder on Kopje, west of the town, which was silenced by a sortie, is active again One shell from it killed one private and wounded several others. Several other shells wounded soldiers. Big guns firing in the direction of Colenso are heard every day.

KRUGER'S PRICE.

Durban, Dec. 29—Wilson Churchill says that President Kruger's price for peace is a guarantee of Transvaal independence, indemnity of a hundred millions, the possession of Natal, Kimberly and all that part of the Cape Colony now occupied by his troops

Lorenzo Marques, Dec. 29—A message from Pretoria says that half-starved Kaffirs are leaving for Boer Laager.

BOERS INTRENCHED.

London, Dec. 29—A Cape correspondent says the rising of the Tugela should enable General Buller to catch most of the Boers south of Colenso within the next few days.

It is inferred in Natal that the destruction of the bridge has made a real difference in the safety of the Boer positions and that the rough crossing which they established further north in the direction of Pieter-Station does not make up for this disadvantage. The Boers have intrenched both on the east and west of the British camp

London, Dec. 29—Despatches from all parts of South Africa emphasize the great enthusiasm among the troops and the public over the appointment of Robert Kitchen and the announcement later that he will be chief of staff has largely dispelled the depression in Cape Colony on account of the recent reverses, while the soldiers expect everything from his presence, from success in battle to cheap beer. Advices from Cape Town the 24th state that investigation shows the report of disaffection among the Dutch in Victoria west district was overdrawn. It is pointed out that farmers, mostly the landowners, will not risk their farms by rising.

A despatch from Lorenzo Marquez the 23rd, says there is a curious story current there that Matt Steyn, brother of the president of the Free State, and eight hundred Free Staters definitely refused to continue in the war. Matt Steyn, acting spokesman, told the president he was only authorized to intervene in the interest of peace and that the burghers didn't feel bound by his "unwarrantable conduct," especially as they ran the risk of the confiscation of their property and they simply desired to be permitted to return in peace and proposed to immediately return to their farms.

TRY TO STARVE IT OUT.

Ladysmith, Dec. 22—The casualties since the siege began are 70 killed, and 235 wounded. Apparently the Boers will not make an assault, but will try to starve out the garrison.

"ALL WELL."

Modder River, Dec. 29—In reply to the heliograph inquiry as to the health of the garrison at Kimberly, was signalled: "All well." The Ninth Lancers gave a concert last night. The camp was crowded and there was great enthusiasm during the singing of the national anthem.

CUBANS EAGER FOR OFFICE.

Flocking to Gen Wood's Office in Droves.

Havana, Dec. 28—General Wood's office is besieged daily by a crowd of office-seekers from all parts of the island. The applicants want everything or anything, from cabinet secretaryships to janitorships. Despite the fact that the governor general receives on an average 200 people every 24 hours, he finds time to pay unexpected early morning visits to the asylums and jails. General Wood prefers to take the managers of such institutions unprepared. Tomorrow he intends to inspect the Leper Hospital. Today he visisted the Beneficencia He does not intend to interfere in matters of public policy before the New Year, when the new cabinet will be installed.

It is generally reported by friends of the men named that Senor Villalon has been offered a cabinet position. A similar statement is made concerning Senors Varona, Estevez and Tamayo. Senor Villalon is the present chief of public works at Santa Clara. Senor Varona was formerly editor of the Patria. Senor Estevezais is the president of the national party. Senor Tamayo is a judge of the supreme court. Most of these appointments, if made, would meet with public approval, but General Wood declines to confirm or deny in any case, asserting that he will not give out information on the subject until the entire cabinet has been decided upon.

Cubans have been agreeably surprised by General Wood's refusal to allow the municipality of Cardenas to grant private contracts. In a communication embodying his refusal, he said: "No such contract will be recognized until after the municipalities have been elected, an event which is only a few months off. Then the will of the people will be known; and provided there is no interference with the prerogatives of the general government municipalities will be allowed to use all rightful means of improving the country without interference from Havana or anywhere else."

IS IT RIGHT?

When you think of it seriously this thing of one country owning another country and selling it for a money consideration to a third government sounds too much like human slavery. What else can it be?

The United States bought the Philippine islands and paid a price for them. The inhabitants of those islands probably didn't think it was fair to be sold like so many cattle. Anyhow they kicked when the delivery of the goods was attempted and now we are shooting them into submission.

The British Lion and the Dutch Boer are now scrapping over some such business in South Africa and we are told there is a secret Anglo-German Portuguese treaty pending by which the Portuguese colonies are to be divided up for money considerations, and Cecil Rhodes is to have a three-mile strip through which to run a railroad.

Trading, swapping, buying and selling whole countries, people and all, may be the right and the proper thing; but we do not believe we have the right to force a Filipino to become an American citizen (or slave) if he doesn't want to become such. No more is it right to make a German out of a Portuguese unless the business is mutual.

There are some things, perhaps, worth fighting for—for instance, for your country when some other country is trying to take it away or trade it off to somebody you don't want to belong to; but we don't like the idea of being the man to shoot the other fellow to make him submit to the trade.

And we do not exactly catch the point that such things are necessary to carry Christianity to heathen nations. Rather an odd way to promulgate the doctrine of "Peace on earth, good will toward men."

Elsewhere today we print an extract from a lengthy article by Jacob G. Schurman, prisident of Cornell University, on "Our Duty to the Philippines." Mr. Schurman says the work of the guns is about over and we should now send missionaries in large numbers. We will agree to the proposition, but must think the work of the missionaries would have been much more effective had they been sent first instead of the guns. The Filipinos are a suspicious people anyway and distrust all white people as a result of Spain's treachery, that nation being the only white people they have heretofore known, and now after pursuing and shooting down their comrades it will be no easy job to convince them that we are their friends, and they will be slow to accept the doctrines taught by our missionaries.

There comes a wail this week from the Chatham Citizen, than which there is not a more bitter partizan sheet in the state, about the ruling of State Superintendent of Public Instruction Mebane anent the decision of the supreme court in the school board matter. The Citizen complains because, it says, some things are not satisfactorily explained. That is tough. Mr. Mebane should take such as the Citizen on his knee (or across his knee) and explain things. Anyhow, it is refreshing to have a man in office who will try to honestly administer the law, regardless of who likes it or who does not.

We think it would be the thing for the city alderman to order a shed built over South Elm street from the depot to the court house to avoid the necessity for umbrellas. Umbrellas, you know, are not popular any more. It might work a temporary hardship on those merchants who have bought a heavy spring stock of parasols, but that does not matter. We want a shed—a broad and high old thing—one that covered wagons can drive under.

That item in yesterday's Telegram concerning the increase in textile manufactories in the south, and particularly in North Carolina, is a gratifying bit of news. This state leads every state in the union. She has for years been considered in the background in everything, but watch her. Her citizens can now sing the "Old North State, Forever" with greater lung power.

Shall Greensboro have a hospital? A question which, perhaps, nobody feels called upon to answer, but which should be answered in the affirmative.

OUTLOOK IN FLORIDA.

Prospects for Orange Crop—New Year in Washington.

Special to the Telegram.

Washington, Dec. 29—Apropos of an item which appeared in a southern daily newspaper, regarding the outlook for the orange industry of Florida, which, during the past few years, because of the freezes which have occurred in the south, has been somewhat retarded, several dealers in Florida fruit in Washington have been seen. They all state that the outlook for Florida oranges this year is decidedly better than for the past two or three years. The season thus far, they say, has been a good one, and the oranges, appear to be of a better quality, sweeter and more juicy than Florida oranges of last season, or the season before. If a frost does not occur, and a freeze take place this winter in Florida, the dealers say that the season will be a very profitable one.

It is claimed that the recent freezes, which have, as stated, retarded somewhat the development of the orange industry in Florida, will in one particular have a beneficial effect. It will, according to this claim, have the effect of driving the orange growers in the state further south, beyond the frost line. In this connection it might be stated that many people coming north from Florida concur in the opinion that the day for orange growing in northern Florida has passed, and that that southern Florida will become the great orange growing portion of the state. It is said that the oranges in southern Florida can be raised better, more profitably, and without the fear of having them killed by the sudden and severe frosts which usually, or which are likely to occur in Florida further north towards the Georgia line.

Dealers in this city say that the consignments of Florida oranges north this winter have been exceptionally large.

President McKinley's New Year's reception will mark the opening of the social season in Washington. The reception as heretofore, if the weather is fair will be a brilliant event. It is not anticipated that there will be a very large attendance at the congressional reception, as very few senators, or representatives are in Washington, but the diplomatic corps will be fully represented, as will also the army and navy. The public reception will last from 1 to 2 o'clock, and preparations have been made for a very large crowd.

New Years day will be observed in Washington in about the usual manner. Watch night services being held in all of the Methodist and Episcopal churches, and several of the Catholic churches of the city will hold midnight mass. Monday will be spent in making and receiving calls.

The democrats of the house of representatives are much interested in the selection of a chairman for their congressional committee. Representative Livingston, of Georgia, is frequently mentioned, and will have considerable support from the southern members. There is some opposition to him, however, which is said to arise from a conviction in the minds of some congressmen that he is not exactly sound on the question of silver and expansion. Mr. Livingston's friends say, however, that he would make an admirable chairman of the congressional committee, and if anyone could carry the campaign to a successful issue that the Georgian would be able to do so. It is likely that other candidates for the chairmanship will be named before the matter is to be finally determined.

Very few North Carolina or Virginia people have been in Washington during the holidays. All of the prominent men in both states are spending the Christmas holidays at their various homes.

Several of the students of the University of Virginia have passed through the city during the past few days enroute to their homes to spend New Year.

It is announced that Dr. Potts, of Alexandria, Va., will visit James Island, S. C., January 1st, for the purpose of prospecting for a new canning factory he is thinking of building at that place.

Mr. J. F. Hays, a prominent citizen of Sapphire, N. C., is at the Raleigh Hotel for a few days. He is in Washington on personal business.

The postoffice site at Decatur, Polk county, N.C., has been changed three-fourths of a mile west, into Henderson county.

A Thousand Tongues

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphi, Pa., when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will every one who tries Dr. Kings' New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c. and $1. Trial bottles free at C. E. Holton's drug store; every bottle guaranteed.

Some politicians greatly resemble corkscrews—they've got a strong pull because they are crooked.

"One Minute Cough Cure is the best remedy I ever used for coughs and colds. It is unequalled for whooping cough. Children all like it," writes H. N. Williams, Gentryville, Ind. Never fails. It is the only harmless remedy that gives immediate results. Cures coughs, colds, hoarseness, croup, pneumonia, bronchitis and all throat and lung troubles. Its early use prevents consumption. Howard Gardner.

"I'm very sensitive on this point," remarked the school-teacher as he sat down on a bent pin.

A SURE CURE FOR CROUP.

Twenty-five Years' Constant Use Without a Failure.

The first indication of croup is hoarseness, and in a child subject to that disease it may be taken as a sure sign of the approach of an attack. Following this hoarseness is a peculiar rough cough. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough appears it will prevent the attack. It is used in many thousands of homes in this broad land and never disappoints the anxious mothers. We have yet to learn of a single instance in which it has not proved effectual. No other preparation can show such a record—twenty-five years' constant use without a failure. For sale by C. E. Holton, druggist.

Son of an Ohio Merchant Cured of Chronic Diarrhoea.

My son has been troubled for years with chronic diarrhoea. Sometime ago I persuaded him to take some of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using two bottles of the 25-cent size he was cured. I give this testimonial, hoping some one similarly afflicted may read it and be benefited.—Thomas B. Bewer, Glencoe, O. For sale by C. E. Holton, druggist.

Free of Charge.

Any adult suffering from a cold settled on the breast, bronchitis, throat or lung troubles of any nature, who will call at Grissom & Fordham's, will be presented with a sample bottle of Boschee's German Syrup, free of charge. Only one bottle given to one person, and none to children without order from parents. No throat or lung remedy ever had such a sale as Boschee's German Syrup in all parts of the civilized world. Twenty years ago millions of bottles were given away, and your druggist will tell you its success was marvelous. It is really he only throat and lung trouble generally endorsed by physicians. Only 75-cent bottle will cure or prove its value. Sold by dealers in all civilized countries.

Hoax—"Henpeck's wife is an awful talker. Did you ever meet her." Joax—"Oh, yes; I have a listening acquaintance with her."

DeWitt's Little Early Risers purify the blood, clean the liver, invigorate the system. Famous little pills for constipation and liver troubles. Howard Gardner.

Slobbs—"That play of Scribbler's is said to be very dry." Blobbs—"It shouldn't be; it's a tank drama."

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadeldhia, was the subject, is narrated by him as follows; "I was in a most dreadful condition tion. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters: and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

"Divorce," says the Manyunk Philosopher, "is like charity in one respect—both begin at home."

He Fooled the Surgeons.

All doctors told Renick Hamilton, of West Jefferson, Ohio, after suffering 18 months from rectal fistula, he would die unless a costly operation was performed; but he cured himself with five boxes of Bucklen's Arnica Salve, the surest pile cure on earth, and the best salve in the world. 25 cents a box. Sold by C. E. Holton, druggist.

"See here, demanded the irate customer, as by the aid of the mirror he detected a pucker across his back; "what does this mean?" "That, sir," explained the quick-witted tailor, "is the latest wrinkle."

It takes but a minute to overcome a tickling in the throat and to stop a cough by the use of One Minute Cough Cure. This remedy quickly cures all forms of throat and lung troubles, harmless and pleasant to take. It prevents consumption. A famous specific for grippe and its after effects. Howard Gardner.

Pandora, so runs the myth, let all the ills of life out of her box to prey upon mankind, but shut the cover soon enough to prevent the escape of hope. Hope remains to every sufferer but it is only an ignis-fatuus unless it takes on some tangible form. The hope of recovery is treasured by every one who suffers from weak or bleeding lungs, obstinate and lingering cough, bronchitis or similar ailments, which, if neglected, or unskilfully treated lead on to consumption. That hope becomes a practical and tangible thing when it is based on the use of Dr. Pierce's Golden Medical Discovery. Such a hope is reasonable because thousands of men and women emaciated and weakened by disease have been made sound and well by the use of "Golden Medical Discovery."

Sick people are invited to consult Dr. R. V. Pierce, Buffalo, N.Y., by letter. All letters are carefully and considerately read and answered. Each letter is held as a sacred confidence and every answer is mailed in a plain envelope without any printing upon it. Write without fear and without fee.

"I was taken sick in July last year, and was not able to do any kind of work until November," writes Mr. Noel W. Orvin, of Langley, Aiken Co., S. C. "Had been coughing up small, hard lumps of phlegm for about a year before I was taken down. I then called on a doctor, who attended me for two months, and said that one-half of my left lung was gone, and advised me to leave my home (Charleston, S. C.), and go to the country, but did not say what sort of disease I had. I thought it was consumption, and wrote to you for advice. I took four bottles of Doctor Pierce's Golden Medical Discovery, which I sincerely believe has done me more good than all the other medicines I have ever taken."

The use of Dr. Pierce's Pleasant Pellets does not beget the pill habit.

WHAT WAS THE CAUSE?

Are the Experts Unable to Determine?

Yesterday we published Mr. J. Van Lindley's letter in regard to the Normal epidemic, copied from the Charlotte Observer. The same paper today contains the following, which we copy:

To the Editor of the Observer:

Today I was reading Mr. Van Lindley's letter referring to the recent typhoid eyidemic at the Greensboro Normal College. It is noticeable that most of those who have written concerning the epidemic has utilized their space in praising President McIver, the faculty, physicians and others for the relief of the sufferers.

This has all been very proper. All those deserved great praise, and the writer would not begrudge them a single word; but people all over our state have listened for some developments from the investigation as to the responsibility. To North Carolinians the question as to the cause of the epidemic and who is responsible for it overshadows all else. Months have passed and yet we have nothing definite. Some of the fairest daughters of our state have perished in youth. Many homes have been saddened Sorrow has been beyond expression. Is it possible that our experts cannot determine the cause? If they have, is it possible that the public cannot be informed as to the responsibility? It is but just and proper that the "light should be turned on." Was it the sewer? If so, who was the engineer and who the contractor, and are either responsible for the epidemic? Was it the plumbing? If so, who was the plumber, and is he responsible? Was it the well water? If so, why were the wells not given attention, and who is responsible for their neglect? If the cause was elsewhere, what was it and who is responsible? If there can be any who can answer, North Carolinians want to hear from them, and they have a right to hear. Carolina.

A RUNAWAY ICE YACHT.

An Exciting Chase and a Narrow Escape From Death.

Some years ago there was a runaway down at Shelter Island in which a young girl was left in the boat with a gale blowing. She tried to throw the sheet loose, but it was frozen and her fingers were too cold, added to which the sheet had fouled the tiller, and she could not bring the boat up into the wind to stop its way, the sail being so set that the boat continued running right along at a terrific rate of speed.

Occupants of the other boats soon realized the position and made chase, gaining slowly, one boat finally being far in the lead of the others by the time the end of the island was left behind. Right in front lay the end of the ice, broken short by the action of the tide water, and there the breakers rolled in, throwing up the anchor ice, dashing it down, and then retreating, sucking it under the floe and packing it up for another break.

For some time it was a question as to whether the chasing boat would catch up with the girl before she was carried over the edge to certain death. But at last the boats came together for one brief second, the girl was snatched by strong arms to the pursuer's yacht, the sheet was eased off in a flash, and, spinning round in its own length, it was set right before the wind instead of reaching into it, just as the runaway dashed over into the anchor ice.

A short, sharp crack gave notice of the parting of the ice beneath the very runners of the now homeward bound savior, and with a long stagger, which only her speed enabled her to withstand, she dashed across the fast opening crack, safe, to be brought up into the wind at a distance, while the late runaway danced, a wreck, among the broken ice. It was one of the close calls of ice yachting which, thank goodness, very seldom occur!—W. P. Pond in Frank Leslie's Popular Monthly.

AGUINALDO AN HONEST MAN.

[CONTINUED FROM FIRST PAGE.]

have urged it on congress and the president to set up civil government in the Philippines just as soon as the military condition warrants it. A civil government is what is needed and every province should have it so they can learn the meaning of our promises and intentions. The president is in possession of the fullest information about the needs and condition of the islands, and he can judge better than we can what is the best thing to do. But as soon as the province is subdued some civil government should be set up, so that its operations before their eyes will teach them of its benefits.

NO FILIPINO DRUNKARDS.

"I regret that the Americans allowed the saloon to get a foothold on the islands. That has hurt the Americans more than anything else, and the spectacle of Americans drunk awakens disgust in the Filipinos. We suppressed the cock fight there, and permitted the tavern to flourish. One emphasized Filipino frailty and the other the American vice. I have never seen a Filipino drunkard.

"In Manila, which is really a cosmopolitan city, in Iloilo and other cities of the Islands, you will find educated Filipinos who are bright and pleasing to meet socially. It is a good thing that we have such a nucleus of education to begin with. The great masses, of course are ignorant, but the one good thing in their favor is that they have a thirst for knowledge. With good American schools on the islands, the leaven of general education will produce results for the masses that will develop the race rapidly. The Filipinos have many other good characteristics. They are honest by nature, and show it in their dealings, although suspicious of the white man."

PLEA FOR CIVIL SERVICE.

"They need roads out there, and their construction is the first necessity when peace is restored to the islands Then after that should come the schools. Let these be established and the missionaries admitted to every province and success will be assured.

"But one thing I wish to emphasize more than any other point that I have dwelt upon. We must make an honest civil service a permanent institution on the islands. Spain established the spoils system, and the corruption which has from it has made three centuries of evil government for the people, and finally resulted in her own overthrow. The best man in the United States is none too good to go to the Philippines as governor general. He must mete out justice to all and teach the Filipinos by his decisions and example that he is their friend. By sending out such a man we will succeed, but if we send an ordinary political appointee we shall fail. I am confident that the right man will be sent, and then our experiment will prove a national success."

HE HAD A VISION.

And the Lord Directed Mr. Harris to Marry Miss Hickman.

Pittsboro, N. C., Dec. 28.—News reaches here of a very singular and romantic marriage which took place in Baldwin township, in this county, on last Sunday in which Mr. Elias Harris, a very respectable and well-to-do farmer, 73 years of age, and a Miss Hickman, a maiden lady of some 35 or 40 summers, were the contracting parties. It seems that Mr Harris, who until Sunday was a widower of some six weeks duration, claims to have been visited by the Lord in a trance on last Friday night in which it was commanded of him to be take himself on the following morn to the house of a neighboring lady, a Miss Hickman, and state that in accordance with a special command from on high it was the solemn duty for the twain to become united in the bonds of matrimony.

The supposed vision resulted in Mr. Harris at once calling on the lady, proposing marriage, being accepted, procuring a marriage license here Saturday and being married on Sunday.

Baldness Can be Cured

just so long as there is a particle of vitality left in the hair roots. The fact that the head is smooth and shining is no positive proof that the roots beneath are dead. Deep down beneath the skin, hair roots may yet exist, filled with latent vitality, and all that is required to develop them into a beautiful head of hair is the faithful application of the proper agents.

Seven Sutherland Sisters'

preparations furnish the easiest, surest and quickest way to ascertain if there is or is not latent life beneath a head bare of hair. Why not try them?

And Deliberately Allowed the Flames to Lick Him Up.

The boy stood on the burning deck
When all the rest had fled;
He swore he'd rather burn to death,
Than see that depot shed.

Reward for Lost Bible.

Mr. Editor:—On Sunday, the 17th instant, after returning from Centenary church to Dr. Stamey's, I discovered the loss of my Bible. Think it must have been lost from the hack. On the fly leaf was written: "Ella Troy, from her husband, John C. Troy, April, 1899." Having been a present to her, now deceased, it is specially dear to me, and if the finder will return same to The Telegram office he will be rewarded. John C. Troy,
